PROJECTS

Myka Tablet

January 2025 - April 2025

Teck Ready Society

- Developing a prototype tablet for cognitively challenged older adults. I'm focusing on front-end design using Android Studio to enhance accessibility and usability

LED Video Game

January 2025 - April 2025

Cloud Society

- Expanding knowledge of cloud technologies while integrating custom game code into a mini LED display, enabling real-time gameplay and interactive features for our video game

Expanding Cybersecurity Knowledge

January 2025 - April 2025

Cyber Security Society

- Enhancing cybersecurity knowledge through hands-on hacking workshops, including steganography, and participating in information sessions with companies such as Arctic Wolf
